

CLAIMING YOUR OFFER

Pull up your offering, create the temporary QR code by clicking the QR Icon. Show your server and have them/management claim your 'Be Local' Offering by scanning the QR code. It's as easy as open, snap and go! Remember the offering (once claimed) will be available once again only after 24 hours have passed. When successfully claimed, the screen will turn a solid green color indicating the offer was indeed used and marked as claimed.
